ORDEN of the Fiscal, Dr. Baldonero Garcia, in reference to a note from the British Chargé d'Affaires soliciting a modification of the laws of Marriage, as regards British and other foreign Protestants.

"The multiplicity of cases proceeding the Marriages of Protestants, has occasioned inconvenience resulting therefrom, have called for the attention of the Chargé d'Affaires of H. B. M. These impediments arise from a too extensive and absurd interpretation of the superior decrees of 29th December and 23d June, 1834, as for example, that petitions be signed by a lawyer, or from the too great rigidity of the laws, in relation to themselves, as for example, the triple publication on three consecutive Sundays, a triple publication almost in all cases, and the Catholics themselves, though established by the Council of Trent, inasmuch as such are the three are seldom performed. And in consequence of the above, it is established that legislation should be more solicited, and scrupulous respecting the Marriages of Protestants, who profess the religion of the State.

The whole object of the decrees cited, is to ascertain the number of the parties, the conformity of those who in certain cases have a right to give or withhold their consent, and the effect of the contract of marriage, all which would be attained by resolving their terms, in the manner the Fiscal of the State has observed.

1st.—That the request to contract matrimony be made merely verbally to the Provisional Director of the State, and the Magistrate shall assemble in verbal audience, the contracting parties, those who have a right to give or withhold their consent, the former are of such an age so to require the consent of others, and also the witnesses, and the latter, and the Magistrate shall observe, if by this means the consent of the contracting parties is to be proved, that in presence of the notary he hear all parties so assembled,

in the part to each appertaining, and before the parties separate he shall direct the record of the proceeding to be drawn up, which all shall sign together with the President and Notary, to which shall be appended the Certificate of the Representative or Consul of the nation to which the contracting parties respectively belong, or any other written attestation, should the proof have been in writing.

2nd.—Should any of the parties fail of appearing at the time appointed, if from refusal, let them be made to appear on the first opportunity; and if from sickness or other physical impediment, the Escribano shall be charged with hearing them, which he shall effect as soon as possible.

3.—The publications mentioned in art. 1 of the decree of 10th March, 1834, are reduced to one, which shall take place only on Sunday; but which may also be dispensed with by the President of the Chamber, if sufficient cause exists according to his discretion.

4. Immediately after the record mentioned in the 1st Article, of the steps requisite in the case of Art. 2, the President shall, on the same date of the last attestation, issue his warrant for the marriage, should it appear right so to do; dispensing in the warrant with the publication of the banns, if the dispensation shall have been requested, and he shall be in granting the same, the dispensation shall be requested verbally.

The warrant mentioned in the preceding article, without the necessity of notifying the parties, shall be communicated orally by the Escribano to the Ecclesiastical who is to solemnize the marriage, informing him that he may proceed immediately, if the publication of the banns shall have been dispensed with, or in six days after, should he receive no order from the President to the contrary, no other requisite being necessary than to give notice to the said Escribano that he may attend the ceremony and attest.

5.—The President shall give notice to the Clergyman to suspend the performance of the ceremony, until he receives information of an impediment, which shall always be laid before him; this done, he shall proceed immediately to an investigation, and should give or indications thereof appear, he shall remit the case to the competent judge of the first instance.

6.—The marriage having been celebrated, the Escribano who in accordance with Art. 6, shall have witnessed it, shall make a record thereon in the manner directed in Art. 6 of the said decree of 10th March 1834, and shall proceed to the fulfilment of all else expressed in said article; thus closing the term of the President's duty, inasmuch that the Escribano may no higher charge that that established in the tariff.

7.—The formalities contained in this new resolution shall be so framed as not only to operate in behalf of British subjects, but shall serve for the inter-marriage of Protestants, declaration being made that those who contract marriage without fulfilling them, are amenable to the 10th Article of the Decree of 20th December, 1833.

Should Y. E. see fit to issue a general resolution, modifying the present Decree of 20th December, 1833, 10th March, and 23d June of the same year in the terms which the Fiscal proposes, he shall propose the preliminary steps to the marriage of Protestants among themselves, and shall be reduced to an absolutely independent, but without risking the important ends therein in view, and the necessary time and money, with advantage to many of the foreigners who marry in our Country.

8.—The Magistrate shall be held amenable to the Honorable Mr. Gore, our friend, worthy Representative of the British Government, near that date.

Buenos Ayres, August 25th, 1852.

**GARCIA.**

"Most Excellent Sir,  
The Solicitor General (Asesor) is of opinion, that the project of resolution contained in the preceding petition of the Fiscal, should be removed the embarrassments felt. But with regard to the contents of Article 3, he believes that the Minister of War should con- sider with one or more of the three here mentioned, on being satisfied of the existence of the causes to be observed, in the view by the Council of Trent when establishing them.

The resolution ought moreover to be provisional, until a Municipality being established in the City, a register can be organized of the acts and marriages of the present persons. With these alterations the Asesor recommends to Y. E. the adoption of the suggestion submitted, and the resolution, if by this means the consent of the contracting parties is to be proved, that in presence of the notary he hear all parties so assembled,

Buenos Ayres, August 28, 1852.

**PROV.**

August 31st, 1852.

Let it be carried into effect, as proposed by the Fiscal, with the amendment indicated by the Asesor; to this end let a copy of these documents be transmitted to the Chamber of Justice for their due fulfillment; let them be published and had as a gubernative resolution and let a certified copy of the opinion of the Fiscal and suggestion of the Asesor, be addressed in reply to the note of the Chargé d'Affaires of H. B. M., dated 3d inst.

CIRCULAR.

To the Justice of Peace of . . . . .  
The humiliating situation to which the Province of Buenos Ayres had been reduced, after its lawfully constituted Authorities had been ousted by the force of a military authority, and supplanted by a personal power that recognizing no sovereignty, institutions, or any right whatever of the Province, placed itself at the front of its destinies, by its sole authority to treat it as a conquered people, not as a people that had been deprived of its rights, has to-day given occasion to the citizen army determined to recover them, restoring the Hon. Chamber of Representatives, that effect may be given to the legislative decree of the 23d June, which, in virtue of a law of the Province, placed the President of said Chamber provisionally in the Government.

The most complete success has crowned the determination of the people and army; and from this date the rights of the Province, which it had created for itself, and of which it was violently deprived, are at the present moment being recovered.

The Government, on communicating to you this occurrence, of vital interest to the destinies of the Province, trusts that you know so to comprehend and propagate it, in all its causes and all its extent.

For this reason it is known to you, that from the receipt of this communication you shall abstain from putting in execution any order or resolution of the Administrative authorities that distantly govern the Province, until such as they specially communicate to the Justice of Peace whom—

The Government considering it necessary for the preservation of public order, under the present circumstances, that the Administration be re-established in the Province, that the corps of the National Guards be concentrated in the Capital, and that the same be incorporated in the line, has decided that it shall be so done, keeping them in garrison,

and the Commandants of the Battalions to receive their orders from General Don Juan Madariaga, provisionally entrusted with the command of the Army of the North.

#### PROCLAMATION—

*The Provisional Government and Captain General of the Province of Buenos Ayres.*  
Citizens: The eleventh of September has alone upon you as the first day of the practical restoration of our country, and those who are not overcome by the power of the bayonet.

When freed from a sanguinary dictatorship, it was wished not to recognize in you a regenerated nation, but to be made to pass through the humiliation of a conquest. Your laws were despised, your sovereignty disregarded, your authorities overthrown, and even the territorial integrity of the Province was placed in danger, in the prosecution of means whereby to debilitate and prostrate us. What weighed upon us was no longer a political programme for the annihilation of a party, but a thorough plan of destruction, in all its manifestations, for our sovereignty and our provincial independence.

The great revolutions of communities are never revivally effected, because they involve fixed and invariable laws, that render impossible the hasty reconstruction of a dictatorship, and with the rains of another prostrated dictatorship; and you and your valiant and generous army have rendered palpable to the eyes of all, the spontaneous determination of the Province.

Complacence, the triumph has renewed the justice of your cause, and the generous self-denial, the magnanimity and the heroisms, called to the elevation of your noble cause, must form the leaves of your civic crown.

You have not acted under the inspiration of any political party, and the absence of all personal passion makes the logical consequence of your design.

You have acted for the Liberty of Buenos Ayres. Buenos Ayres must be logically re-installed—now, then, secure your enterprise by your civic valor, and moralize it more and more by the firm sentiments of fraternity, order and peace.

Praise to Buenos Ayres.

Praise to the heroic Sorbonne.

Praise to all the Provinces of the Republic, that regard as a sister, that never failed to be such towards them.

MANUEL GUILLERMO PINTO.

Note.—With date the 11th, the Minister of War and Marine addressed a circular, couched in the same terms, to the Ministers of Government to the Justices of Peace, to the General Flores, Commandant-in-Chief of the Department of Neuquen, to Colonel Olmos, at Chacabuco; to Colonel Frías, at the Guardia del Monte; and to Colonel Eugenio Buenos at the Dregadero.

Department of War and Marine.

Buenos Ayres, Sept. 12, 1852.

To Lieutenant Colonel Don Pedro Rosas y Belgrano.

The re-establishment of the legal order of this Province took place yesterday, by the decision of the Army and Representatives of the people, who by the aid of an existing law have placed General Don Manuel Guillermo Pinto, President of the Legislature, at the head of the Government.

The Provincial Administration is already organized, and in tranquil exercise of its legal prerogatives.

Your patriotism inspires the Government with entire confidence in your cooperation towards securing the Laws of the Province.

In announcing to you so important an event, I have the honor of obeying a Superior Resolution.

God preserve you many years.

Jose Maria Flores.

This note has been circulated to all the military Commandants of the Department of the South.

Note of the same to Colonels Olmos and Acosta, acquainting them by their appointment as Provisional Justices of Peace, with the former of the district from this City to the Veaino; and the latter of that from the Veaino southwards to Colonel Ramon Bustos, ceasing in his command of the southern Districts.

Buenos Ayres, Sept. 14th, 1852.  
Most Excellent.  
The undersigned Citizens of the National Guard, respectfully present themselves before Y. E. and request that, although we are fully satisfied with, and even grateful to the Chiefs that have heretofore been entrusted, and provisionally re-entrusted to our hands, we have an anxious wish that the Honorable Representative Colonel Don Bartolome Mitre should be at our head.

Far be from us, therefore, any unfavourable ideas with regard to the aforesaid Chiefs, far wish merely to see the command of our battalions of this City for Colonel Mitre, may serve as a better rallying point of our just indignation, that we think we thus fulfil the wishes of the people, which demands in each Colonel Mitre has just suffered as the representative of the People, for having shown himself a worthy and honest patriot, and for his liberality to our Country; which doubtless our actual Chiefs will comprehend and appreciate.

Therefore we request that Y. E. will deign to accede, as early as possible, to this our petition, to the end that we may be able to sign.

(Here follow the signatures.)

Department of War and Marine—

Buenos Ayres, Sept. 14th, 1852.

The Government wishing to regulate the service rendered by the National Guard, has accorded and decrees—

Art. 1st.—All the individuals who ought to enroll in the National Guard, shall present themselves to the Chief of the corps within the term of 24 hours.

2d.—Colonel Don Bartolome Mitre, Chief of the National Guard, is charged with the execution of this decree, and authorized to issue the necessary orders to the Citizens.

3d.—Let it be published and given to the Official Register.

PINTO.  
(In absence of the Minister of War.)

Ministry of War and Marine—

Buenos Ayres, Sept. 14th, 1852.

To Colonel D. Bartolome Mitre.

On this date the Government appoints your Honour Commandant-in-Chief of the National Guard.

In depositing in Your Honour this honorable confidence, it does justice to the noble services of Colonel Mitre, his ardent adhesion to the Laws, and to the unanimous wish of the Citizens, who have expressly solicited from the Government, to be placed under his command, in the decisive situation in which the Country is placed.

God preserve your Honour many years—

(In absence of the Minister of War.)

Jose Tomas Guido.

"The Colonel, Commandant-in-Chief of the National Guard of Buenos Ayres, to the Citizens called by title to the service of Arms."

Citizens! In placing me at the head of the National Guard of Buenos Ayres, the Supreme Government has entrusted me with the enrolment of the Civic Militias.

With aid and authorization and in name of the Government, I call you to arms.

The cords which do not respond to this call, deserve to be branded on the forehead with a red iron, to mark them as eternally ignoble seal of slavery.

Do not let me see you! You have lost all. You must retrieve all.

You have grasped under the sword of a conqueror.

You have been plundered of your soldiers, of your treasures, your artillery and armament, declared the enemy of the Republic.

You have seen your fellowcitizens torn from their homes, to be transported like African negroes, to the distant shores of misery.

You have seen your institutions at the mercy of the caprice of an autocrat, who recognized no other law than force, no other right than his will.

You have seen that it was meant to present our Province before the Congress, as a captive, before the bayonet, with a blood-bound hand and foot, and with a gag in its mouth.

And nevertheless citizens of Buenos Ayres are still wanting in the National Guard.

Write to ALL CLASSES: to Arms! In the name of the law, by order of the Government, and in behalf of the interests and glory of the Republic, I call you to arms.

Armed Citizens!—You represent under arms public opinion. You have banded on the points of your bayonets, as a rallying emblem, the sacred rights of your disarmed brethren.

At this supreme and decisive moment, place myself at your head, by order of the Government, with the intention of guiding you in the path of honor and glory.

Soldiers of the National Guard!—On your shoulders, and on the shoulders of all the gallant and valiant soldiers of the Army of Liberty, now weigh the destinies of the Argentine Republic.

Beate every nerve to support with gallantry and majesty so noble a burden, circulating enthusiasm through your ranks like the ancient warriors of the world.

Patriots of Buenos Ayres!—You belong to a distinguished race, however much tyrants may wish to degrade you; and you descend from those valiant Patriarchs whose name you bear, who in the years 6 and 7 vanquished the invader of the world.

And who in 1810 gave the grand signal of the American Revolution, whose independence they have secured with their blood.

You are bound to correspond to that name, and place yourself at the elevation of its glory.

Your mission is to realize the promise of that revolution, giving to the bayonet the bayonet which demands in each man the people their lost liberty, to man his outraged dignity, and to all in general justice; so that the bayonet may be the honest head.

Companions of arms!—In presence of so glorious a situation, and such sublime duty,—is there any of you who does not feel

himself a hero, capable of giving his head for the triumph!—If there be such a dastard, he must instantly quit the ranks, as unworthy to bear the Argentine name.

Buenos Ayres, Sept. 15th, 1852.

BARTOLOME MITRE.

"The Commandant-in-Chief of the National Guard of Buenos Ayres."

In conformity with the Superior decree of this date, which authorizes the undersigned to call to arms the National Guard, both active and passive, intimation is given to all the citizens who have not registered in the National Guard, to do so within the term of 24 hours to the Chief of the National Guard to be enrolled, or to submit their just excuses.

A council of classification, composed of the Commandants of the Battalions, presided by the undersigned, is appointing districts upon the exceptions.

Buenos Ayres, Sept. 14th, 1852.  
BARTOLOME MITRE.

The Chief of Police—

To the Minister of Government, Don Valentín Alsina.

I have the satisfaction of acquainting Y. E. that the National Guard, in its preceding ones, has been there any disorder in the community, and that no resident whatever in the City of Buenos Ayres, who has any reports consequently being unfounded that were circulated, that partial acts of pillage had been committed in any part of the City, which is perfectly guarded by numerous patrols of the inhabitants, the constant vigilance of the National Guard of infantry and cavalry; all which gives assurance that the public tranquillity cannot be interrupted.

God preserve Y. E. many years.

MIGUEL J. AZOUEMA.

To General Don Jose Maria Frías.

Mi Excmo. General, Sept. 14th, 1852.

I arrived at half past five p. m., where I have been received with the greatest honor by Juan Manuel de Rosas, the Honorable Colonel Don Ramon Delgado; the latter had received orders from Galan, which he disapproved, and he has taken the contrary, but adopted some measures to preserve some degree of order in the Department.

On my arrival he placed himself under my orders with his entire force, though he himself is confined to bed by indisposition.

According to the reports I receive, the enemy continue in the direction of Giles and Arco, in the greatest disorder, with about 1,800 men, robbing and killing as they have their way pass, and saying that the Corrientes come from the north, and that they are in the same soldiers, have presented themselves to me, the troops hardly see with them, they tell them that General Flores is to join them with three regiments of the Department.

I have seen a note from the latter to the Justice of Peace of Moron, that he should supply a Mayor with two parties and shoot every one he found robbing. As to horses I remain in the same state as at my departure, but to receive supplies of a thousand to-morrow, and then my marches shall be as quick as lightning.

Write to General Flores acquainting him of all the damage committed by the enemy, of their demoralized state, and place myself in the letter of yesterday a copy of a reply and will transmit it the moment it comes to hand.

I have nothing farther to say at present, I subscribe myself, as at all times, yours friend and obedient servant.

Manuel Hornos.

To Colonel Don Cayetano Laprida.

Guardia del Luján, Sept. 15th, 1852.

My Dear Friend—

The disorder and humiliation in which the Eastern Districts of this Province are, and the deprivations which they commit in their transit, have placed me under the necessity of sending my report to the Government of the Province, now legally established; consequently you will assemble all the Chiefs of the Districts, and give me to understand that we must not forget that we are Portefios, and that we must not submit to the humiliations which you are to be placed upon as by a handful of men, whom I now pity in their misfortune.

I request, my dear friend, to submit copies of this report to the Government of our country, and to be to the toy of men who do not wish to respect.

Sacred obligations call upon us on this occasion to organize our Country, and enable it to resist the attacks of foreign influence; liberty rightly understood so demanding in my opinion. Reason, my friend, is the only way to reach the truth, and with that of all Argentine citizens and with the best wishes of your friend and companion.

Jose Maria Flores.

The General, Commandant-in-)

Chief of the Department of the North.

Villa de Lujan, Sept. 15th, 1852.

To H. E. the Minister of Government.

Though I reckon with the sympathies of this Department to support your compromise, I cannot but be sensible that the honest heads, the excesses of those who style themselves liberators, and commit every kind of disaster on their march, who besides banking the

pride of the Portefios, leave far behind the deprivations committed by the savages of the Pampa, and that the orders you have issued to a Porteno and an honest man I cannot second so detestable a course; on which account, I, the Chiefs, Officers and soldiers of the Department, have spontaneously and of our own accord, submitted ourselves to the legal Superior Government of Buenos Ayres in our Country; which I have on this date communicated to General Frías, trusting that the Chiefs, Officers and soldiers of the Department, have spontaneously and of our own accord, submitted ourselves to the legal Superior Government of Buenos Ayres in our Country;
